

# Dock to dock

CANARY WHARF  
GROUP PLC

In the 19th and early 20th centuries, West India Docks bustled with ships and people trading goods. Now, Canary Wharf is in West India Docks and it's as busy as ever!

## Thirsty work

Two thirds of London's drinking water comes from the Thames, though it is treated before it gushes out of our taps!

## Secret code

This bottle was found with a message in it and it is written in secret code. Use the code cracker to work out what it says.

## Oh buoy!

Buoys float in the water and help captains of boats to know where to go. How many buoys can you find on this page?

## Go figure!

Can you match these numbers to the facts? Each number can only be used once.

- A) The River Thames is \_\_\_\_\_ km long
- B) About \_\_\_\_\_ tonnes of steel were used to construct One Canada Square
- C) Canary Wharf is only \_\_\_\_\_ km from Trafalgar Square in Central London
- D) The River Thames is tidal at the Docklands. It has \_\_\_\_\_ tides a day
- E) There are \_\_\_\_\_ floors in One Canada Square

### Numbers:

2 8 50 346 27,500

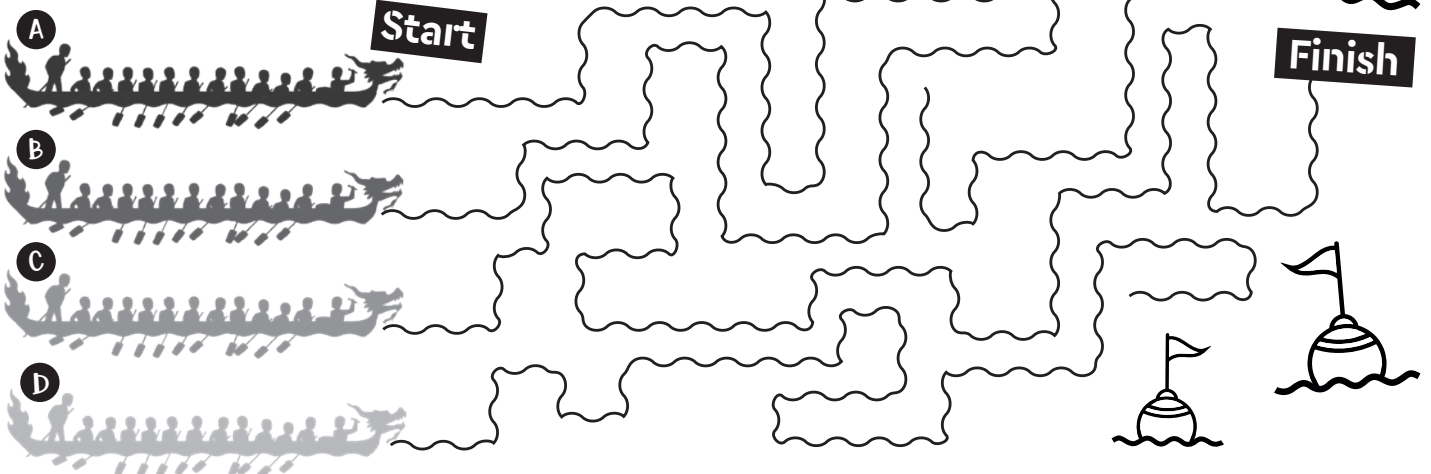

## Code cracker

A = F = M = R = Y =   
 C = H = N = T =   
 E = K = O = W =

The answer is:

## Paddle power

Dragon boat racing started in China more than 2000 years ago but has been popular in the Docklands for over 25 years. Can you work out which dragon boat held its course to win the race?

Answers: Secret code: Take me to Canary Wharf!; Go figure!: A - 346; B - 27,500; C - 8; D - 2; E - 50. Paddle power: C. Oh buoy! There are 9 buoys.
