Using bold shapes to create an eye-catching design artist Fiona Grady will transform the Jubilee Place atrium. The colour palette references the iconic Rainbow Pride Flag which reflects the diversity of the LGBTQIA+ community. This joyful use of colour celebrates every queer identifying individual to align a sense of collective belonging. This piece will also feature as part of our Summer Lights programme.

PROUDLY TOGETHER, REBECCA STRICKSON, CUBITT STEPS

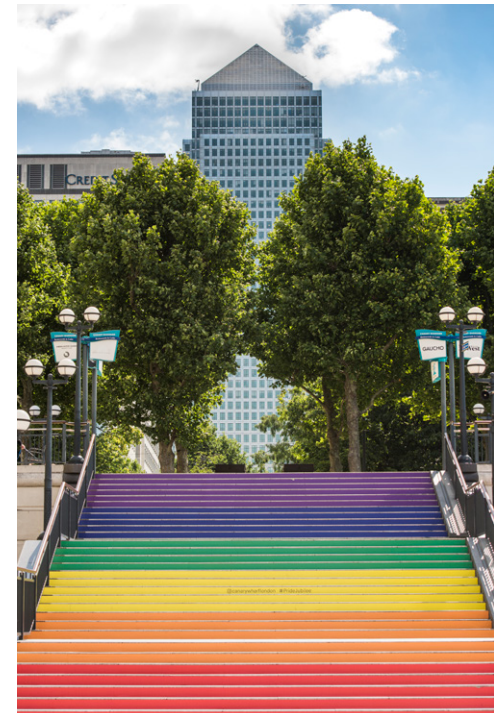

Proudly Together wraps a rainbow river around Cubitt Steps to remind us of how the equal love we all want encompasses everyone in London, and not only during Pride month.

Each aspect of all the Pride flags comes to life as individual badges on the steps representing everyone irrespective of their sexual orientation. We are all equal here.

Rebecca Strickson’s installation is a joyful colourful look at the serious subject of love and a reminder we strive for equality. As a proud bisexual artist, Strickson has created a temporary world where we can harmoniously exist, equally, lovingly and passionately whilst not forgetting the past elders who have made this possible.

LOOKING UP HELAIN BLUMENFELD PUBLIC ART

DAILY UNTIL TUE 30 NOVEMBER
THROUGHOUT CANARY WHARF

Visit this stunning outdoor exhibition by renowned artist Helaine Blumenfeld OBE.

As well as being her largest solo exhibition to date, this is also an unrivalled opportunity to view Blumenfeld's work in the context of hard interior and exterior architecture. Her fusion of natural forms, both human and foliate, spiced with abstraction, are seen through a range of diverse works dating from 1974 to 2019.

Blumenfeld works in a range of media – marble from many locations in Europe and the Middle East, terracotta, wood and bronze, all of which she pushes to the limits of risk, teetering on the edge of impossibility, particularly in her carving.

SUMMER LIGHTS

Summer Lights is a new, outdoor exhibition which looks to celebrate and play with natural light through art.

Light art has been growing in popularity, with our own Winter Lights festival becoming a firm favourite so, for 2021, we have created Summer Lights. Aiming to continue to bring stunning works of art to the Canary Wharf estate, this unique light event celebrates light in its most natural form.

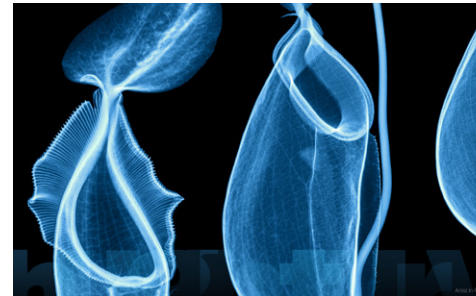

11 colourful artworks will be dotted around Canary Wharf for you to discover. These stunning installations will come to life at sunrise as the daylight shines through and refracts, creating beautiful patterns, reflections and vibrant colours.

HIDDEN GARDEN

MON 21 JUNE – SAT 21 AUGUST

Hidden Garden is a scientific representation of flora, using the medium of x-ray imaging to highlight the hidden architectural structures within the subjects. Each image will cover a theme including sustainability, habitat, pollinators and medicinal, each captioned explaining either the science, research or statistics behind the image.

Set against the apt backdrop of Crossrail Place Roof Garden, the blown-up images allow visitors to engage with nature on a more intimate level, allowing us to see just how fragile nature can be and how transparent it is that we should be acting against climate change. This piece will also feature as part of our Summer Lights programme.
