STATE OF PLAY **BY VARIOUS ARTISTS**

Daily until Fri 11 November
Throughout Canary Wharf
Free

Brooke Benington and Canary Wharf are pleased to present the 2nd edition, State of Play, an exhibition of contemporary sculpture which reconnects us with a foundational characteristic of humanity, and the starting place for all artists. To play; for pleasure, for curiosity, for community, for the pure delight in doing. From theatre to sports, and primary schools to art schools, play is the overlooked epicentre of the human experience. It's how we learn and how we evolve, adapt and create.

SCALE MATTERS **BY ANGELA GLAJCAR**

Daily until Fri 11 November
Lobby, One Canada Square
Free

Visitors to the lobby of One Canada Square will enjoy a wonderfully calming and immersive experience as internationally acclaimed artist Angela Glajcar creates a series of visionary, site-specific paper installations. The formal rigour and elegant simplicity of her starkly monochrome paper creations are perfectly positioned within this normally busy, bustling thoroughfare. They invite the visitor to embrace and absorb the textures and contours of her striking sculptures and consider the dialogue created between, scale, material and space.

Graphic Rewilding is an ongoing art project created by artists Lee Baker & Catherine Borowski. The goal of this project is to create large-scale artworks that introduce the diversity and colours of the natural world into urban environments. With these images they hope to inspire and encourage people to connect a little more with nature. The plants and insects that feature on the walls were picked by the artists to highlight of Canary Wharf Group's expansive work with the Eden Project.
