Information

Canary Wharf and our Winter Lights festival is accessible to visitors with mobility impairments. If you have any questions about accessibility or would like to pick up an A3 printed map, please visit our Information Point on Jubilee Plaza which is open during our festival dates between 5-10pm daily. You will find the step-free route on the map, indicated with accessible ramp and lift icons. The step-free route is mainly hard-standing, level access with some ramps and inclines. Indoor installations within malls are fully accessible via lifts.

The whole route will take around 2-3 hours to complete but this can take longer on weekends when there is likely to be queues for each installation. If you are looking to visit on a quieter evening, we recommend you visit Monday - Wednesday.

Some of our installations have flashing lights, if you need more information on this please visit our Information Point on Jubilee Plaza before you start the trail.

For information about accessible parking please visit canarywharf.com/accessibility.

Should you require first aid or medical assistance during the event please approach any of our Event Stewards, who will be wearing high visibility pink vests, or Security Officers.

If you have any other enquiries before you visit the event please contact arts+events@canarywharf.com or call **0207 418 2000** and ask to speak to the Arts + Events team. During the event, you can visit our Information Point on Jubilee Plaza.
